

## AngioScreen Available August 27<sup>th</sup>

In only 6 – 10 minutes, this painless screening will include:

**Stroke Screening/Carotid Artery Ultrasound**-Screens for plaque in the carotid arteries.

**EKG Of The Heart**-Detects Atrial Fib most common heart arrhythmia which increases the risk of Stroke or Heart Attack.

**Peripheral Arterial Disease (PAD)**- Screening for blockage in leg arteries which increases the risk of a heart attack 2-4 times the general population.

**Abdominal Aortic Aneurysm (AAA)** is a ballooning or weakening of the wall of the abdominal aorta. AAAs have no symptoms but are often fatal if they rupture.
